## Creating and Sending Emails

February, 2017

The Email App included with your website is designed to make it easy to create and send emails. This app allows you to re-use email already created. It also helps you to measure the effectiveness of your emails by recording the number of emails “opened” and “clicked”.

### Section A: Creating Emails

### Section B: Sending Emails

### Section C: Monitoring Email Activity

### Section D: Creating links within your email copy

#### A. Creating a New Email.

1. Begin by clicking the “Expand Main Menus” on your main admin menu bar.

2. Next, click “Email Program” in the Active Data menu bar.

3. The Email Home Page shows a list of recently sent emails and their respective results.

Run Date:	Campaign Name/Send List:	# Sent:	# Opened:	# Clicked:	Actions:
2017-02-08 11:50	Logid: 129 Title: "USAA Sponsorship for MOAA Chapters" Sent to: <b>MOAA Chapters 2016</b> <a href="#">EDIT</a>	393	207	15	<a href="#">Details</a>
	Email No. 67 Type: text Percentages:	100%	52.7%	3.8%	<a href="#">Delete</a>
2017-02-08 11:39	Logid: 127 Title: "USAA Sponsorship for MOAA Councils" Sent to: <b>MOAA Councils 2016</b> <a href="#">EDIT</a>	26	8	1	<a href="#">Details</a>
	Email No. 66 Type: text Percentages:	100%	30.8%	3.8%	<a href="#">Delete</a>
2017-02-07 06:16	Logid: 87 Title: "USAA Sponsorship for MOAA" Sent to: <b>MOAA Adm List</b> <a href="#">EDIT</a>	31	20	4	<a href="#">Details</a>
	Email No. 49 Type: text Percentages:	100%	64.5%	12.9%	<a href="#">Delete</a>

On the left margin, click “Create a New Email”.

4. You can create “Text” or “HTML” emails. Text emails are just that, and include limited formatting and content tools. HTML emails include a full color graphic layout that looks like a webpage. Creating HTML emails requires additional instruction, which will be covered in another help document.

Click “Create a Text Message”

The screenshot shows the left sidebar with the following links: **emails**, emails Sent, email List, and Create a New email. To the right of the sidebar are two buttons: "Create a Text Message" and "Create an HTML Message".

5. Next, complete the required fields show on this page.

The screenshot shows the email creation form with the following fields and options:

- Date Created:** 2017-02-15 Use format 'yyyy-mm-dd'
- Email Name:** For Reference ONLY. Does NOT appear in email.
- Subject:** As it appears in the Subject Line:
- Copy:** Use Full Tool Bar (with a rich text editor toolbar showing Bold, Italic, Bulleted List, Numbered List, Link, and Help icons)
- Tag Line:** Visit our Website
- Select iLink:** Home
- Select Sender:** Joe Leonard jrl@nonprofitdynamics.com
- Create this email** button

The “Email Name” is a reference name for this email.

The “Subject” is what the readers will see in the subject line on their email program.

Normally, you should use plain text in creating copy for your email. However, if you wish to modify your copy with special html tags (colors, bold, formatting, etc.) you can select “use full tool bar”.

# Non Profit Dynamics

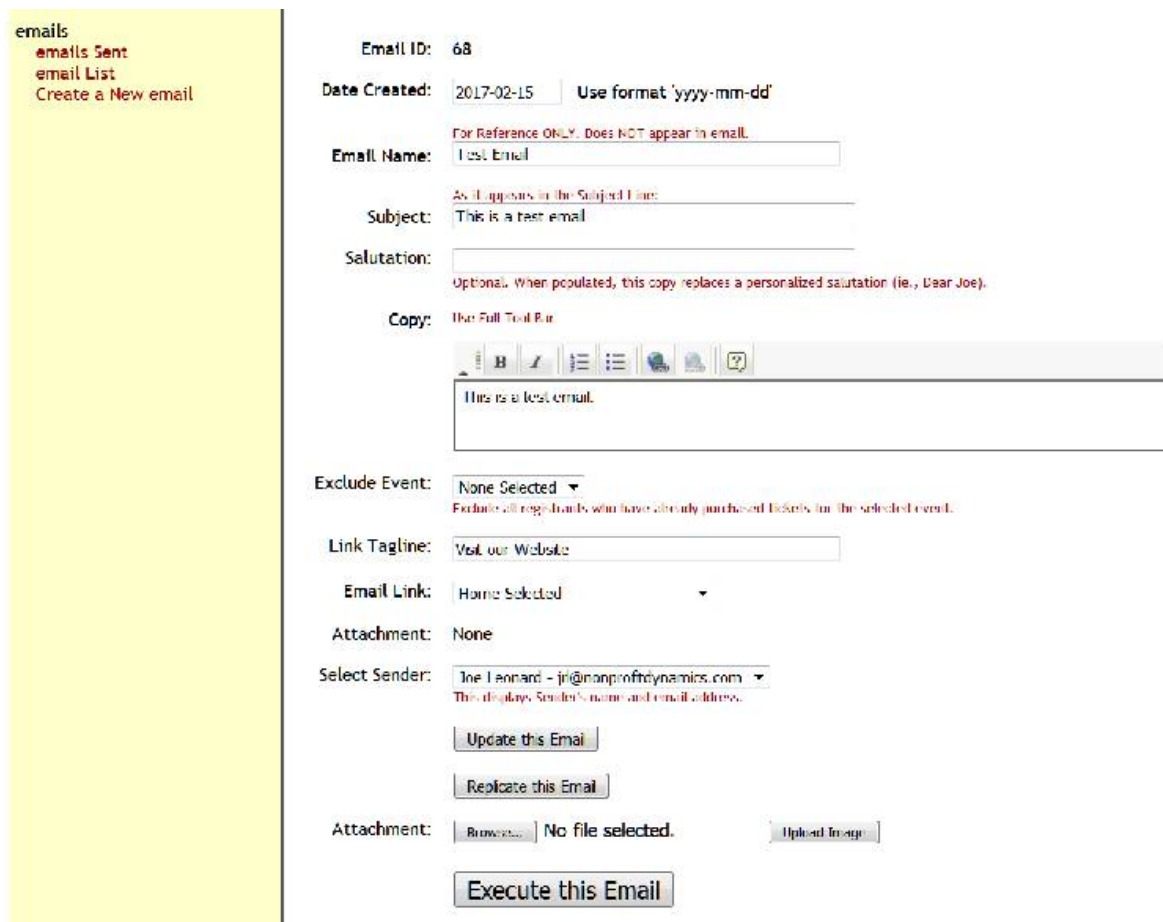

The “Tag Line” and iLink (internal link) are set by default to your website home page. If you want to direct readers to a specific webpage, you would select it from the iLink drop-down list and create a tag line describing that page.

The “Sender” is set to the person currently logged in to the admin. However, you can select an alternate sender from the drop-down list. This list includes only those individuals given admin access.

When finished, click the “Create this Email” link.

## B. Sending your New Email.

1. Your completed email is re-displayed and ready to be delivered.

The screenshot shows the email creation interface. On the left is a yellow sidebar with a menu: 'emails', 'emails Sent', 'email List', and 'Create a New email'. The main area contains the following fields and controls:

- Email ID:** 68
- Date Created:** 2017-02-15. A button 'Use format 'yyyy-mm-dd'' is next to it.
- Email Name:** Test Email. A note above the field says 'For Reference ONLY. Does NOT appear in email.'
- Subject:** This is a test email. A note above the field says 'As it appears in the Subject Line.'
- Salutation:** (empty field). A note below says 'Optional. When populated, this copy replaces a personalized salutation (ie., Dear Joe).'
- Copy:** Use Full Tool Bar. Below this is a rich text editor toolbar with icons for bold, italic, bulleted list, numbered list, link, unlink, and image, followed by a text area containing 'This is a test email.'
- Exclude Event:** None Selected. A note below says 'Exclude all registrants who have already purchased tickets for the selected event.'
- Link Tagline:** Visit our Website.
- Email Link:** Home Selected.
- Attachment:** None.
- Select Sender:** Joe Leonard - jrl@nonprofitdynamics.com. A note below says 'This displays Sender's name and email address.'
- Buttons: 'Update this Email', 'Replicate this Email', 'Attachment: Browse...' (with 'No file selected.'), 'Upload Image...', and 'Execute this Email'.

If you wish to include an attachment to your email, “Browse” your computer for the attachment.

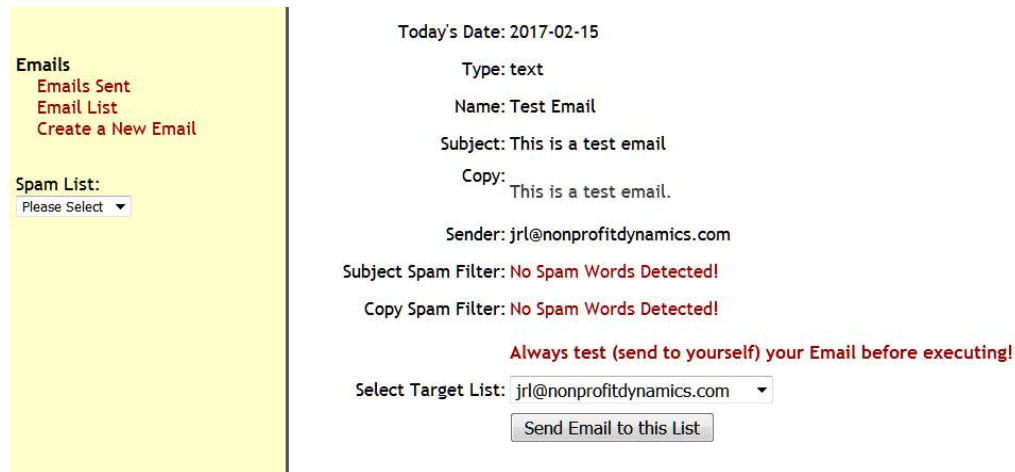

Otherwise, click “Execute this Email”

# Non Profit Dynamics

2. If activated, the “Spam Filter” will compare your email copy with known spam words. Depending on the recipients’ email program spam words can prevent your email from being delivered. If any spam words are detected, you should amend your copy, replacing the affected words with alternatives. For a full list of the suspect spam words, see the drop-down list on the left menu panel.

If you’re content with your email, you’re ready to test it.

**YOU SHOULD ALWAYS SEND THE EMAIL TO YOURSELF TO CHECK FOR ERRORS!**

Retrieve your test email from your email program and review for errors or omissions. Make any necessary changes.

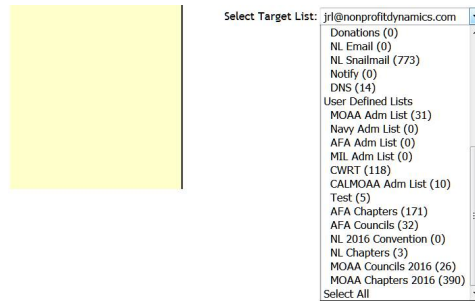

NOTE: Emails to single recipients, such as test emails, are viewed from separate page. To view these emails, click “Show Individual Emails” appearing on the top left corner of the email summary page:

REFRESH THIS PAGE			
Show Individual Emails			
Run Date:	Campaign Name/Send List:	# Sent:	# Opened:
2018-12-16	Logid: 20 Title: "Board Test email" Sent to: <b>Officers</b> <b>FNIT</b>	12	7

Now you are ready to send your email. Begin by selecting a “Target List”. The target list includes all defined sublists of your registration table.

If any of these defined sublists include any emails, you will see a count. For example, in this list, the “MOAA Adm List” includes 31 emails.

# Non Profit Dynamics

Select the list you wish to address with your email. If you want to send to all registrations, scroll to the bottom of this drop-down list and select "Select All".

For this illustration, I am selecting a Test List.

3. After sending your email, the email home page displays with your email listed at the top.

<b>Show Individual Emails</b>	<b>Run Date:</b> 2017-02-15 06:50	<b>Campaign Name/Send List:</b> Logid: 130 Title: "Test Email" Sent to: <b>Test</b> <a href="#">EDIT</a>	<b># Sent:</b> 5	<b># Opened:</b> 0	<b># Clicked:</b> 0	<b>Actions:</b> <a href="#">Details</a>
-------------------------------	-----------------------------------	--	------------------	--------------------	---------------------	---

This is what your email looks like when received:

# Non Profit Dynamics

Note that the sender is as defined as well as the default link. There are also three hard-coded links included with every email. These include:

- “Forward to a Friend” – Allows the recipient to forward email to another person.
- “Remove from Mailing List” – Allows the recipient to be deleted from your registration table.
- “Update your Registration” – Allows the recipient to make changes to their personal profile.

You will also notice an image displayed under “powered by”. By default, this will be an image identifying your website. It is this image, when displayed, that records the receipt of this email.

## Section C: Monitoring Email Activity

1. After a period of time, you can refresh this page to see who has opened your email.

<b>Emails</b> Emails Sent Email List Create a New Email	REFRESH THIS PAGE					
	Show Individual Emails					
	Run Date: 2017-02-15 06:50	Campaign Name/Send List: Logid: 130 Title: "Test Email" Sent to: Test EDIT	# Sent: 5	# Opened: 1	# Clicked: 0	Actions: Details
	Email No. 68 Type: text		Percentages:	100%	20.0%	0.0% Delete

Click “Details” to show individuals emails who have opened and/or clicked a link within your email.

<b>Emails</b> Emails Sent Email List Create a New Email	Date:	email Campaign:	Sent:	Opened:	Clicked:	Actions:
	2017-02-15	Logid: 130 Title: "Test Email"	5	1	0	Delete
	06:50	Sent to: Test <a href="#">EDIT</a>				
			Percentages:	100%	20.0%	0.0%
<a href="#">Resend to Non-Recipients</a> <a href="#">Print Non-Recipients List</a>						
Confirmed Recipients:						
<b>View Sub Lists:</b> Please Select <a href="#">Select</a>	Reg ID	<u>Respondent:</u>	<u>Email</u>	<u>Date Opened:</u>	<u>Date Clicked:</u>	
	9317	Leonard, Joe	<a href="mailto:jrl@nonprofitdynamics.com">jrl@nonprofitdynamics.com</a>	2017-02-15		
--- EOF ---						

Over time, this list will grow as people open your email. “Date Clicked” refers to active links in defined in your email.

## Section D: Creating links within your email copy
